

# Guide for adding you E-mail to Mac Mail

---

1. Log into your webmail at <https://post.intendit.se>
2. Then press the menu button called "**Options**"

3. Then click the left menu button called "**Client Settings**"

4. Press the **"More"** button under the box Apple IOS/OSX

5. Enter your Email address and password, then **uncheck** Exchange ActiveSync and press the button called **"Configure"**

6. Now it will give you a configure file called **"payload.mobileconfig"** If you open this file it will configure your mail in your Mac Mail.
